

Pilkington **Galleria™**

Enhanced clarity of framed artwork and photography

Overview

Pilkington **Galleria™** picture framing glass diffuses light across its surface so that instead of harsh, sharp reflection, the reflected image is reduced to a soft sheen. Framed as close to the picture as possible, Pilkington **Galleria™** will enhance the clarity of any framed print, photograph or watercolour.

Nominal glass thickness	2 mm
Available size	1840 × 1240 mm
Nominal weight	5 kg/m²

Features and benefits

- Diffuses light across its surface
- Softens harsh reflections
- Reduces reflected images to a soft sheen
- Ideal for use with photographs, prints and water colours

Additional information

For maximum effect, the glass should be positioned within 20 mm of the picture. Pilkington **Galleria™** is not recommended for heavy textured work such as oil paintings.
