

An opaque finish with  
clear design applications

## Transform an interior with Pilkington Painted Glass

Pilkington Painted Glass is a stylish range of colour backed decorative non-toughened glass, created especially for indoor use. The glass has a sleek, modern lustre thanks to a high quality coating on the back. The result is a highly durable, multi-purpose product with limitless design opportunities.

### **Pilkington Painted Glass – Jet Black**

Manufactured on Pilkington **Optifloat™** Clear in LES packs in 4 mm thickness.

- 3210×2250
- 3210×2550

### **Pilkington Painted Glass – Ice White**

Manufactured on Pilkington **Optiwhite™**, in LES and Jumbo packs in 4 mm and 6 mm thickness.

- 3210×2250 (LES)
- 3210×2550 (LES)
- 3210×6000 (Jumbo)

Pilkington **Optiwhite™** is a low-iron, extra clear, virtually colourless glass (without the green cast in conventional float glass).

### **Applications**

Pilkington Painted Glass can be used in a wide variety of domestic, architectural and commercial indoor applications – almost anywhere a contemporary and practical solution is required to enhance an interior space. These include:

- Bars and restaurants
- Kitchens and bathrooms
- Table tops
- Feature walls
- Wardrobe doors
- Hospitals

Pilkington Painted Glass is currently available in annealed form, however a safety backing film can be added by a third party to reduce the risk of possible injury where compliance with building codes is required for impact safety. This is particularly important when using the glass in and around doors and low level glazing applications.

### **Product features**

- Easy to handle, install and process
- Durable
- Hygienic
- Easy to clean
- Requires minimum maintenance
- Can be drilled or shaped to suit kitchen or bathroom schemes
- Can be fitted using traditional mirror fixing techniques
- Available in 4 mm and 6 mm
