

Pilkington Texture Glass

Description

Pilkington Texture Glass is a rolled pattern glass that provides obscuration and decoration with one surface having a specific pattern or design impressed into the surface. Pilkington Texture Glass has all the attributes of glass – durability, ease of cleaning and resistance to scratching and marking. It is stocked by most distributors and is a low-cost decorative option.

Features and Benefits

- Contemporary range - stocked for ease of availability
- Economical method of providing permanent privacy and decoration
- Diffused daylight
- Unique visual effects
- Design
- High light transmittance
- Temperable
